Subject: RE: New Age Blast Media

Stephen,

I have permission from one of our contractors with the following:

The New Age Blast medium glass media leaves the perfect new wood grain. it is faster and leaves a more uniform finish, i prefer it over all other media, it is easy to work with and the results speak for itself!

Cole Pavvy
Colorado Log Enterprises

Hope all is well. We have high hopes for August and September, the last two months of our fiscal year!

Best. Tari
